“Trees are sanctuaries. Whoever knows how to speak to them, whoever knows how to listen to them, can learn the truth. They do not preach learning and precepts. They teach, undeterred by particulars, the ancient law of life.”

Hermann Hesse *Wandering*

This issue of the Bonsai Times will mostly be a pictorial review of events from this past year. There is also much information on what’s to come in the next few months so be sure and mark your calendars!

Jim Heacock and Jim Brant during a panel discussion at the October meeting.

Message from the President

Winter - Bah Humbug.
With our trees resting for a few months, it is a good time to take stock and prepare for spring re-potting and styling. Do we have enough soil and wire, are the tools sharp and oiled, have the pots been cleaned, etc. It is also a good time to read up on care and styling recommendations for each type of tree in our collection. Yes, spring will get here, but there is a lot to do as we wait.

An anxious Dooley Brant.

The annual banquet held in January of this year at Hunan Springs helped chase away the winter blues for the 24 members who attended. The food was the best ever!!!
